GOOD DESIGN AWARD 2023

DESIGN AWARD 2024

全球AI水下机器人领军者

FIFISH E-S1

专业级测量测绘AI水下机器人

云圣智能
i-KINGTEC
低空基础设施解决方案提供商

公司介绍

云圣智能科技有限责任公司是一家以人工智能为核心，以四维全息实景地图、工业无人机、全自动机场、地面机器人、物联网云平台为载体，融合多元传感器，为行业级用户提供“机、网、云”一体化系统解决方案，为电力、新能源、消防应急、智慧城市、林业、智慧文旅等领域提供天地联动四维全息管控平台的国家级专精特新“小巨人”企业。

产品特点

- 真正的无人化，自动更换电池传感器，自动规划航线起飞，自动产出报告
- 真正的智能化，端侧AI模块结合自研大模型，实现端边云协同计算
- 真正的工业化，IP55级别工业三防，无惧复杂作业环境
- 真正的多元化，红外、高清可见光、喊话器……多元吊舱应对不同作业需求
- 真正的集群化，可以通过平台一网统管多台无人机
- 真正的四维化，三维空间加时间轴，实现全生命周期的管理和运维
- 真正的数字化，机器自动建图实现现实场景的复刻，打造数字孪生的底座
- 真正的全感知，融合各类传感器和无人机数据，在点、线、面的工业场景构建物联网络

农林业专用多光谱高光谱相机遥感方案

上海昊量光电设备有限公司是目前国内知名光电产品专业代理商，也是近年来发展很快的光电代理企业。 其代理的Micasense多光谱全色相机以及Specim高光谱相机，在农林业方面能提供各种专业的无人机解决方案。

Specim AFX系列高光谱相机是由Specim FX系列升级推出的专业用在无人机遥感平台的可见光近红外高光谱成像仪。现在推出的整套系统涵盖VNIR/NIR波段高光谱成像仪。

另外，还有一款AISA系列中FENIX_1K高光谱成像仪系统，传感器具有1024个空间像素，将高光谱成像的生产力提升到一个全新的水平，能节约60%的飞行成本。

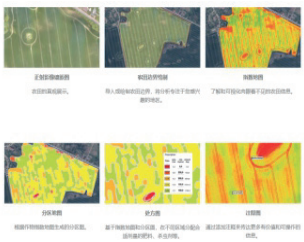

除此之外，我司作为大疆无人机代理商，基于大疆的无人机有很多技术和功能性的开发，并且可实现多种相机的同时挂载，多光谱相机、高清相机、热红外相机等，可以同时采集多种数据，节省时间提高效率。

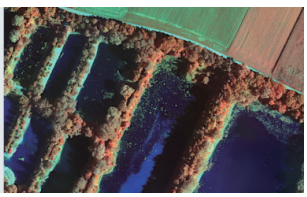

对产品感兴趣的客户可以扫描下方二维码添加负责人**曹工**。

一站式无人机应用方案解决专家-航拍网

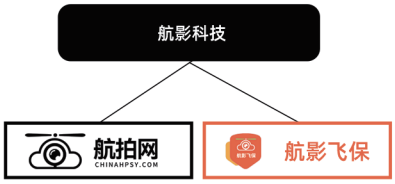

航影科技自主研发运营的航拍网APP，定位于无人机产业互联网的服务平台，致力于普及专业无人机知识，传播行业前沿资讯，积极开展各类无人机赛事，并集聚更多无人机产业参与者，提供综合性的平台服务。中国航拍网上线至今，围绕着商业服务的系统建设，已经开发出“酷玩圈”、“商海云”、“互联汇”、“航家说”、“天空商城”、“飞行学院”等一系列服务功能，逐步形成无人机产业的服务生态链。

关于航影飞保：

航影飞保是航影（江苏）信息科技有限公司为无人机行业应用推出的保障服务，通过集采承保公司的产品，来为客户提供无人机机身意外损失、三者意外责任损失、盗抢损失和驾驶员人身意外伤害损失的保障和支持服务。

航影科技专注于为无人机行业提供各类综合性服务和产品，自主研发运营的无人机互联网平台——航拍网 APP，是一款聚焦于无人机产业的移动互联网平台，平台围绕着服务飞手群体和无人机产业参与者这一目标，不断地打造和深化功能矩阵，与无人机上下游企业一起共建优质的行业生态。

专业法务团队 严审条款，统一理赔

航影飞保拥有一支专业的法务团队，严审保障服务条款，发生理赔时能够更有效的保障消费者权益

更全面，更优惠 无人机保障方案

航影飞保通过集采承保公司的风险产品来分担风险，同时凭借无人机行业经验来为客户提供更全面优惠的保障方案

先行垫付，代为理赔

理赔发生时，情况符合条件航影飞保第一时间为客户垫付维修费用，同时为客户统一向承保公司索赔，帮客户节省时间和精力

统一集采，价格更低

航影飞保可以通过更低的价格从承保公司统一批量的集采风险产品

2024 世界无人机大会 - 日程

5 月 24-26 日 | 中国·深圳

5 月 24 日 主论坛			
时间	论坛名	地点	
9:00-12:00	**2024 世界无人机大会 · 全体会议**	深圳会展中心	5 层 簕杜鹃厅
13:30-17:00	**2024 世界无人机大会· 全体会议 - eVTOL 峰会**		
17:30-20:30	**2024 全球无人机盛典**	大中华喜来登	6 层 大宴会厅
5 月 24–26 日 平行论坛			
5 月 24 日			
上午 9:00-12:00	无人机芯片及系统解决方案创新论坛	深圳会展中心	5 层 玫瑰 3 厅
	低空数字交通管理暨无人系统通信与低空感知论坛 ——第十九届中国卫星导航与位置服务运营商大会		6 层 桂花厅
	第三届低空天路论坛		6 层 茉莉厅
	无人机微波通信论坛		6 层 郁金香厅
下午 14:00-17:30	智慧水利空地一体化建设论坛 暨第三届水域无人系统高质量创新发展论坛		5 层 菊花厅
	民用机场无人机安防治理与创新应用发展论坛		5 层 牡丹厅
	无人系统设备论坛		5 层 玫瑰 3 厅
	2024 空天技术未来产业创新发展应用论坛		6 层 桂花厅
	首届地下管廊隧道巡检技术论坛		5 层 玫瑰 2 厅
	低空经济与产业集群峰会	龙岗坂田	星河吉酒店 一楼大厅

5 月 25 日			
全天 8:30-18:00	2024 国际精准农业航空产业发展论坛	深圳会展中心	6 层 桂花厅
	使命必达·实战化验证 -2024 提升无人机遂行任务能力高峰论坛		6 层 水仙厅
	全国民用无人驾驶航空器新质人才培养发展论坛		5 层 菊花厅
上午 9:00-12:00	第八届警用无人机创新应用论坛		5 层 牡丹厅
	低空经济与消防无人机融合创新论坛		5 层 玫瑰 3 厅
	第三届特种机器人创新应用论坛		5 层 玫瑰 2 厅
	第三届热气球产业峰会		5 层 玫瑰 1 厅
	无人机物流配送应用论坛		6 层 茉莉厅
	低空经济产业投融资论坛		6 层 郁金香厅
	华创科技创新论坛	龙岗布吉	深特变科技园 A 栋三层
下午 14:00-17:30	低空经济发展研讨会	深圳会展中心	5 层 簕杜鹃厅
	第六届无人机探测与反制技术应用论坛		5 层 牡丹厅
	无人机抗干扰通信与高精度定位技术论坛		5 层 玫瑰 3 厅
	无人机遥感测绘技术应用论坛		5 层 玫瑰 2 厅
	无人系统检测认证与标准发展论坛		5 层 玫瑰 1 厅
	无人机新材料应用高峰论坛		6 层 郁金香厅
	人工智能无人系统产业园发展论坛		6 层 茉莉厅
	新质生产力无人机元宇宙高峰论坛	南山科技园	
	2024 第二届全国无人机行业党建工作创新发展论坛	上海宾馆	2 层 上海厅
13:30-16:00	无人机产业未来发展趋势闭门会	英龙大厦	4 层 会议室
16:00-18:00	“一带一路”民用无人机产业对接交流会		

5 月 26 日			
全天 9:00-17:30	首届能源电力低空经济发展论坛	深圳会展中心	6 层 郁金香厅
上午 9:00-12:00	浙江省文成县低空经济招引合作项目对接会		5 层 牡丹厅
第四届中国智能汽车创新大会			
5.25 9:00-17:30	第四届中国智能汽车创新大会主论坛	深圳南山人才公园	求贤阁 二楼
5.24-26	2024 智能汽车与无人系统未来城市科技体验节		
5.25 14:00-17:30	空地联动与无人系统城市服务生态建设论坛		求贤阁 一楼会议室
5.26 9:00-17:30	智能座舱与操作系统生态论坛		求贤阁 二楼
5.26 9:00-12:00	大师课：ROS 无人机追踪小车项目开发实战		求贤阁 一楼会议室
5.26 14:00-17:30	大师课：人形机器人的感知、想象、执行全栈方案		
2024 世界无人机大会 – 分会场			
3.18-19	2024 世界无人机大会·北川分会场	四川·北川	
5.27-28	2024 世界无人机大会·中山分会场	广东·中山	
5.28-29	2024 世界无人机大会·东南亚分会场	云南·昆明	
5.29-30	2024 世界无人机大会·福建南安分会场	福建·南安	
6 月	2024 世界无人机大会·云南分会场	云南·昆明	
7 月	2024 世界无人机大会·华东分会场	江苏·镇江	
9 月	2024 世界无人机大会·大鹏新区分会场	广东·深圳·大鹏坝光	
同期展会			
5.24-26 9:00-17:00	**2024 国际低空经济与无人系统博览会** **2024 第九届深圳国际无人机展览会** **2024 自动驾驶与无人车技术展览会**	深圳会展中心	1 号馆
同期赛事			
5.24-26	2024 粤港澳大湾区无人机竞速锦标赛 无人机 FPV 竞速赛、无人机空中足球赛、无人机趣味挑战赛、无人机空中足球竞技赛	深圳会展中心	1 号馆（室外）
	体验赛：AI 体育体验、机甲大师、无人越野车、穿越机、无人机足球		

Drone World Congress 2024-Schedule

May 24-26 | Shenzhen, China

May 24 Main–Conference			
Time	**Topic**	**Venue**	
9:00-12:00	**Drone World Congress 2024**	Shenzhen Convention & Exhibition Center	5F, Bougainillea Hall
13:30-17:00	**Drone World Congress 2024-eVTOL Summit**		
17:30-20:30	**Global UAV Grand Ceremony 2024**	Sheraton Shenzhen Futian Hotel	6F, Grand Hall
May 24-26 Sub–Conferences			
May 24			
AM 9:00-12:00	UAV Chip & System Solution Innovation Forum	Shenzhen Convention & Exhibition Center	5F, Rose Hall 3
	Forum on Low Altitude Digital Traffic Management and Unmanned Systems Communication and Low Altitude Sensing ——The 19th China Satellite Navigation and Location Service Operators Conference		6F, Osmanthus Hall
	The 3rd Low-altitude Sky Road Forum		6F, Jasmine Hall
	UAV Microwave Communication Forum		6F, Tulip Hall
PM 14:00-17:30	Intelligent Water Conservancy Air-Ground Integration Construction Forum and UAV Systems in Watershed High-Quality Innovation and Development Forum		5F, Chrysanthemum Hall
	UAV Security Governance and Innovative Application of Civil Airports Development Forum		5F, Peony Hall
	Unmanned Vehicle Systems Equipment Forum		5F, Rose Hall 3
	Innovation and Development Application for Future Industry of Air and Space Technology Forum 2024		6F, Osmanthus Hall
	The 1st Underground Pipe Gallery Tunnel Inspection Technology Forum		5F, Rose Hall 2

PM 14:00-17:30	Low Altitude Economy and Industrial Clusters Summit	Bantian, Longgang District	1F Lobby, The G Shenzhen, A Tribute Portfolio Hotel
May 25			
ALL DAY 8:30-18:00	International Conference of Precision Agricultural Aviation Industry Development 2024	Shenzhen Convention & Exhibition Center	6F, Osmanthus Hall
	Mission Critical · Validation of Operationalization - Enhancing UAV Mission Capability Summit 2024		6F, Narcissus Hall
	National Civil Unmanned Aerial Vehicle's New Quality Talent Training Development Forum		5F, Chrysanthemum Hall
AM 9:00-12:00	The 8th Police-used UAV Application and Innovation Forum		5F, Peony Hall
	Low Altitude Economy and Firefighting Drone Integration and Innovation Forum		5F, Rose Hall 3
	The 3rd Special Robotics Innovation Forum		5F, Rose Hall 2
	The 3rd Hot Air Balloon Industry Summit		5F, Rose Hall 1
	UAV Logistics and Delivery Application Forum		6F, Jasmine Hall
	UAV Investment and Financing Forum		6F, Tulip Hall
	Huachuang Technology Innovation Forum	3F, Building A, ShenTeBian Innovation and Technology Park Buji, Longgang District	
PM 14:00-17:30	Low-altitude Economy Industry Development Seminar	Shenzhen Convention & Exhibition Center	5F, Bougainvillea Hall
	The 6th UAV Detection and Counter UAS Innovation and Technology Application Forum		5F, Peony Hall
	UAV Anti-Jamming Communication and High Precision Positioning Technology Forum		5F, Rose Hall 3

PM 14:00-17:30	UAV Remote Sensing Mapping Innovation and Development Forum	Shenzhen Convention & Exhibition Center	5F, Rose Hall 2
	Certification and Standards Development for Unmanned Systems Testing Forum		5F, Rose Hall 1
	UAV New Material Application Summit		6F, Tulip Hall
	AI Unmanned System Industrial Park Development Forum		6F, Jasmine Hall
	New Mass Productivity Drone Meta-cosmos Summit	Nanshan Science Park	
	The 2nd national UAV industry party building work innovation and development forum 2024	ShangHai Room, 2F, Shanghai Hotel	
13:30-16:00	WUAVF Presidents Roundtable	4F, Meeting Room, Yinglong Building	
16:00-18:00	Closed-door Session on Future Trends in the Drone Industry		
May 26			
ALL DAY 9:00-17:30	The 1st Energy and Power Low Altitude Economic Development Forum	Shenzhen Convention & Exhibition Center	6F, Tulip Hall
AM 9:00-12:00	Low-altitude Economy for Commercial Co-operation Projects Match-making Meeting, Wencheng, Zhejiang		5F, Peony Hall
The 4th China Intelligent Vehicle Innovation Conference			
5.25 9:00-17:30	The 4th China Intelligent Vehicle Innovation Conference	Shenzhen Talent Park	Qiuxiange 2F
5.24-26	Future City Technology Experience Carnival on Intelligent Vehicles and Unmanned Systems 2024		
5.25 14:00-17:30	Air-Land Linkage and Unmanned Systems Urban Services Ecology Construction Forum		Qiuxiange, 1F Meeting Room
5.26 9:00-17:30	Smart Cockpit and Operating System Ecosystem Forum		Qiuxiange, 2F
5.26 9:00-12:00	Masterclasses：Prometheus open source UAV platform - UAV tracking unmanned vehicle code practice		Qiuxiange, 1F Meeting Room
5.26 14:00-17:30	Masterclasses：Embodied Intelligence - Perception, Imagination, Execution PIE Scheme of Humanoid Robots		

Sub-Venues			
3.18-19	Drone World Congress 2024 - Beichuan Branch		
5.27-28	Drone World Congress 2024 - Zhongshan Branch		
5.28-29	Drone World Congress 2024 - Southeast Asia Branch		
5.29-30	Drone World Congress 2024 - Fujian Nan'an Branch		
June	Drone World Congress 2024 - Yunnan Branch		
July	Drone World Congress 2024 - East China Branch		
September	Drone World Congress 2024 - Dapeng New District Branch		
Exhibition			
May 24-26 9:00-17:00	**International Low Altitude Economy and UAS Expo 2024** **The 9th Shenzhen International UAV Expo 2024** **Autonomous Driving and Unmanned Vehicles Technology EXPO 2024**	Shenzhen Convention & Exhibition Center	Hall 1
Competition			
May 24-26 9:00-17:00	GBA Drone Racing Championships 2024	Shenzhen Convention & Exhibition Center	Hall 1 (outdoor)
	Experience Tournaments: AI Sports Experience, Mecha Master, Unmanned Buggy, Traversing Machine, Drone Soccer Experience Tournament

参展商名录

1 号馆

展位号：1A01

艾普拉斯（上海）质量检测有限公司

地址：上海浦东新区秀浦路 3999 弄聚诚创业园 23 号
电话：+86 (21) 5237 0776
E-mail：William.liu@applus.com
网址：www.appluslaboratories.cn/cn/zh

Applus+ 是全球前十的检测、检验及认证机构。在全球 70 多个地区拥有超过 23,000 名员工。作为欧洲 EU 2019/945 认证公告机构图（NB0370）及可靠的合作伙伴，Applus 已服务空客、波音、商飞、霍尼韦尔、大疆等多家航空航天企业，并可为无人机厂商提供基于美国 FAA、欧洲 CE-UAS/RED、中东、东南亚、美洲无人机认证全方位咨询、测试及认证服务。

主要产品信息：无人机及配件检测及认证

展位号：1A03

北京微克智飞科技有限公司

地址：北京市大兴区亦庄经济开发区经海三路 109 号院 65 号楼 8 层 801
电话：010-087220463
E-mail：471371390@qq.com
网址：www.vk-fly.com

北京微克智飞科技有限公司着眼于未来低空无人航空器的智能化前景，已建立了基于无人机飞行控制系 统、定位系统、通信系统、视觉系统等智能硬件，依托先进的导航定位算法 、人工智能算法、大数据挖掘算法而形成的具备行业领先水平的技术体系和研发团队。

主要产品信息：一体化飞控、V10-RPO 行业飞控、V8M-PRO 行业飞控

展位号：1A07

中山市飞派无人机科技发展有限公司

地址：广东省中山市板芙镇板芙中路 100 号二楼
电话：0760-0760-8888 7883
E-mail：zhangyingqi2007@163.com

飞派由深圳市无人机行业协会牵头头部会员企业发起，社会资本参与，专业从事无人机产业基地投资运营 ; 目前飞派在中山市打造大湾区第一个以无人机 (装备) 为主题的全产业链生态智造基地。

主要产品信息：国际无人机（大湾区）智能生产基地

展位号：1A09

安徽省空安信息技术有限公司

地址：安徽省天智路 27 号
电话：19965413893
E-mail：market@xinkongan.cn
网址：xinkongan.cn

安徽省空安信息技术有限公司于 2021 年 2 月创立于科教之城合肥。作为大疆官方生态合作伙伴、安徽空天产业链企业、聚焦于无人机行业应用信息

Exhibitor list

Hall 1

Booth Number：1A01

Applus (Shanghai) Quality Inspection Co., Ltd.

Address：Jucheng Industrial Park, Building 23, 3999 Xiu Pu Rd, PuDong New Area Shanghai 201315, China
Tel：86 (21) 5237 0776
E-mail：William.liu@applus.com
Website：https://www.appluslaboratories.cn/cn/zh/
Applus+ is a world leading 3rd party company in the testing, inspection and certification service. We are the Drone Regulation (EU 2019/945) Notify body (NB0370) and a trusted partner with Top Aerospace companies for decades. Could provide one stop service for Drone/Remote ID manufacturer consulting, testing & certification service.
Main Exhibit： Drone & Remote ID US/EU testing and certification

Booth Number：1A03

BEIJING WEIKEZHIFEI TECHNOLOGY CO.,LTD

was founded in February 2021 in Hefei, the city of science and education. It is a high-tech enterprise that develops unmanned aerial vehicle platforms for big data collection, information extraction, and intelligent decision-making. The company has a vision of "low altitude digital intelligence, serving all industries" and adheres to the corporate mission of "making good use of aerial technology, jointly building public safety", providing intelligent overall solutions for multiple industries such as public security and fire protection. At present, there are thousands of users tested and used, covering 27 provinces across the country. In 2023, the company passed the "three-level security" certification for network security and the national high-tech enterprise certification. The company has multiple core technologies with independent intellectual property rights.

Main Exhibit: UAV Management&Collaborative, DJI Dock Intelligent Patrol, Rapid Traffic Disposal, and so on.

Shenzhen Topu Motor Technology Co., Ltd.

E-mail：theaxiao@radiomasterrc.com
Website：www.topumotor.com
Topu Motor is a high-tech enterprise specializing in a complete set of FPV power systems and drone solutions, including brushless motors, ESC, flight controllers, and frames. Since its inception, Top Motor has always adhered to the corporate philosophy of “innovation, quality, and service”, committed to providing customers with high-performance and high-quality products and professional technical support. To ensure product quality, Top Motor strictly controls every aspect of the production process, from raw material procurement to manufacturing and finished product testing, striving for the best possible outcomes. In addition, the company also provides comprehensive after-sales service to address any concerns customers may have. In the future, Top Motor will continue to persist in innovation and pursue quality, offering even better products and solutions to support the development of China’s drone industry.
Main Exhibit： Motor, ESC, Flight Controller, drone fram

主要产品信息：抗干扰无人机、多功能应急无人机、自主定位导航模组

HARQOM has consistently prioritized independent research and development of professional wireless communication technology. As a dedicated provider of network wireless communication solutions adhering to independent innovation and continuous enhancement, we have developed a variety of wireless ad hoc network waveform systems with completely independent intellectual property rights and suitable for various fields. We are committed to providing customers with effcient, safe and decentralized communication technology and products, in order to ensure the smooth and rapid voice, data, video transmission as well as visual command and dispatch at any time and anywhere. We are willing to join hands with partners from all walks of life to provide the world with China's strong ad hoc network technology and create a new era of wireless intelligent connection.

Main Exhibit： ad hoc network module/high performance data transmission module/network HD video transmission module

Website：www.ztwoem.com
Established in 2007, ZTW Model is dedicated to developing and manufacturing electronic power systems for RC models. Our products are not only recognized by competitors in the RC industry but welcomed in over 60 countries and regions around the globe, which makes ZTW Model one of the most popular brands and OEM enterprises in the world. ZTW Model always pays close attention to the feedback from home and abroad, keeps pace with the development of the RC industry, and continues innovating and improving technologies for providing customers with high-quality products & services. All of our products conform with CE, RoHS, UKCA, FCC and others. We look forward to cooperating with global distributors and agents of RC power systems for RC cars, boats, surfboards, helicopters, drones, and industrial applications. Selecting ZTW equals selecting quality & reliability!

AheadX Tech (Beijing) Co., Ltd. is one of the earliest companies who are exploring the unmanned system technology base on MEMS sensor and had mastered profoundly the advanced flight control technology on various aircrafts, such as fixed-wing, airship, helicopter, and ducted fan craft and multi-rotors, etc. AheadX has proven itself as one of the leaders in the area of flight control and navigation technology. AheadX took part in creating and producing various types of equipment, 3 trips of scientific expedition and investigation on UAV. Our products including Avionics and drones, in addition, AheadX is able to tailor make drones according to customer’s requirements. Up to now, AheadX has obtained over 40 patent authorizations and has more than 10000 active drones worldwide. AheadX will never stop in striving on way to exploring the “Dependable Flying Robot”.

UING Intelligent Technology (Shenzhen) Co., Ltd., a subsidiary of Guangtai International Holdings (00844.HK), was established in 2011. It is a national high-tech enterprise located in Nanshan District, Shenzhen. Based on the team's more than ten years of technology and experience in the fields of drones, 3D laser scanning robots, and AI artificial intelligence, the company has independently developed a high-precision millimeter-level 3D laser scanning robot. In response to the national strategy and the requirements of "bottleneck" and domestic substitution, UING integrates multiple sensors such as drones, LiDAR, SLAM, multispectral, and precision measurement robots to obtain accurate data. By using forward design and reverse modeling of the three-dimensional space and automating the processing of digital and image data through digital twin technology, UING provides solutions and services for 3D China and smart cities, achieving cost reduction and efficiency improvement. Mission of UING

Tianjin Hangxing Intelligent Technology Co., Ltd. is committed to providing power solutions for small aviation aircraft. With the development of the drone industry, the engine, as a core component, has become a pain point that affects flight safety and service life. The company relies on engine professionals who have been deeply involved in the industry for more than a decade to form a research and development team, combined with years of mechanical processing and production management system for high-precision components. Through strict processes and innovative configuration design, the goal is to produce the highest quality professional level domestic small engines, creating maximum value for customers! The product is widely used in agricultural and forestry plant protection, fire emergency, outdoor emergency support, military training support, and sports competitions such as aviation models, power umbrellas, and power surfboards.

Henan RAYI Composite Materials Co., Ltd. is a top-tier propeller manufacturer, handling research, production, and sales under one roof. Our team brings years of experience in crafting carbon fiber propellers. Since our inception, we’ ve honed our focus on crafting propellers that are ultra-light, ultra-strong, and ultra-efficient. Our aim? To deliver top-notch, reliable, and cost-effective propellers for various industries, from military to public safety, firefighting, aerial photography, surveying, power inspection, and logistics. We’ ve developed over 60 high-performance propeller models, secured 21 patents, and earned ISO quality system certification and high-tech enterprise status. Fueled by our spirit of innovation and relentless drive, our efforts have borne fruit with the successful launch of large-scale propellers for firefighting, logistics, and manned aircraft. Market feedback? It’ s been nothing short of stellar, with customers singing our praises.

Beijing Cyber-Communication&Information Technology Co.,Ltd. was established in March 2011, specializing in communication and computer system hardware and software development, system integration. The company mainly researches, produces and sells Infofly® series video, data and remote control integrated data link products with independent intellectual property rights, providing highly reliable communication connection for industrial unmanned systems. This series of data link has been successfully matched for multiple types of UAVs at home and abroad, long-term operation in a variety of natural environment conditions, stable and reliable quality, promoting the development of unmanned systems industry. Infofly series broadband data link is specially developed for industrial UAVs, integrating video, data and remote control. It has multiple interface types, long transmission range and stable performance. The series data link operates in the L or S band and can communicate up to 300 km .

Main Exhibit: All-in-One data link radio, Automatic tracking antenna

NextVPU (Shanghai) Co., Ltd. is a cutting-edge technology company with a focus on designing AI computer vision processing chips and associated terminal applications.

NextVPU has successfully launched its N-series, D-series, and V-series chips, setting new global benchmarks for visual processing capabilities with over 300 intellectual property assets. These chips have widespread applications across various industries, including industrial and robotics, automotive, consumer electronics, and professional security.

Our mission at NextVPU is to empower smart devices with human-level visual perception, enabling them to excel in complex tasks across diverse environments, ultimately enhancing people's work and life in all aspects.

Main Exhibit: Feynman Smart Depth Cameras

市场部、研发部、技术部、质量部、综合部、财务部、采购部、无人机事业部、复合材料事业部共 8 个职能部门。公司无人机事业部拥有强度、气动、结构、工艺、电器总装设计、整机生产制造及各型号无人机飞行服务能力。是国内无人机设计、生产、集成为一体的无人机系统整体解决方案提供商。

Wenzhou Black Dragonfly UAV Technology Co., Ltd. is engaged in industrial UAV research and development, manufacturing, sales and application as one of the science and technology enterprises. Since 2010, it has been engaged in UAV research and development, and is an early enterprise engaged in industrial UAV industry application in China. Now it carries out joint development and strategic cooperation with a number of well-known universities in China, has 42 patented technologies, and 70% of its employees are technical research and development personnel. It has a complete system of UAV manufacturing software, hardware and big data cloud management and control application platform. At present, it has electric multi-rotor UAV, single-rotor unmanned helicopter, long-endurance fixed-wing UAV, tvel-electric hybrid composite wing UAV and other products, which can achieve a good application in fire alarm, security emergency, remote sensing aerial survey and other aspects.

Main Exhibit: Fire rescue drones, agricultural drones, hybrid systems and engines.

Shenzhen BGABOARD specializes in the production and manufacturing of thick copper mechanical blind buried PCBs, providing one-stop services to high-tech drone enterprises worldwide. Our products range from design, production, to SMT surface mount processing of 4 6 8-10 layer thick copper blind buried hole PCBs. BGABOARD's production base is based in Bao'an District, Shenzhen and is a verified supplier for Huawei. Our PCBs are applied to various drone types, such as FPV crossing drones, fixed wing drones, multi-rotor drones, agricultural and forestry plant protection drones, police drones, and flight control hardware PCBs. Our core competitiveness lies in our technology expertise. We focus on thick copper mechanical blind buried PCBs and take pride in understanding our customers' PCB design requirements. Our engineers develop dedicated production process management processes for each PCB board, ensuring our clients produce high-quality PCBs with minimal errors.

In today's world, unmanned systems are profoundly influencing and changing the form of warfare. Choosing the right security equipment has become crucial. Therefore, Shenzhen WaveFeng Technology Co., Ltd. has formed an alliance with more than 20 top domestic low altitude safety production and sales enterprises. In the field of unmanned system security defense, Wufeng Technology has a profound professional technical accumulation. Provide customers with the most suitable unmanned aerial vehicle detection and defense system equipment, solve their difficulties in selecting equipment, and ensure that they can correctly identify and select unmanned system defense equipment. By fully leveraging our respective resource advantages, we can jointly develop and serve our customers, and contribute to the technological progress of humanity. We use professional technology to provide customers with professional selection advice for low altitude safety system equipment.

Fuxin Haizhou Economic Development Zone Management Committee

Tel：0418-2591099
E-mail：Fxhzjjkfq@163.com
Haizhou economic development zone in Fuxin, Liaoning province is the first choice for the development of UAV industry. First of all, have a convenient and safe airspace conditions. Haizhou District has been granted two 100-square-kilometre airspace at true heights of 500m and 1,000m, capable of meeting the flight requirements and safety requirements for test and flight tests of unmanned aerial vehicles (uavs) . Second, it has unique flight conditions. A training base for uavs has been built and State General Administration of Sports as one of the fifth batch of aviation camps. Third, provide a well-functioning infrastructure. At present, the base has been built 900-3000 square meters of standardized plant 10, for the enterprise to provide"Bag check-in" service. Construction of three unmanned aircraft runway, are: 800 meters long, 30 meters wide navigable runway, 400 meters long, 20 meters wide of the link, 350 meters long, 20 meters wide unmanned aircraft runway.
Main Exhibit： Attracting investment and cooperation with the vast number of UAV Enterprises.

Website：www.os-face.com/
Hangzhou Jieshi Technology Co., Ltd. is a national high-tech enterprise, a double-soft enterprise. The company is committed to the research of robot automatic modeling technology, thermal imaging temperature measurement technology, face recognition technology, and has successfully developed a series of products and industry solutions such as thermal imaging explosion-proof cameras, flame detection cameras, edge computing boxes, face recognition tablet computers, dual-light temperature measurement cameras, hotel stranger alarms, hotel minor alarms, and non-inductive dormitory attendance. Successfully developed dormitory management system, school intelligence, school informatization, and intelligent security system. Products and solutions have been widely used in hotels, airports, stations, subways, high-speed rail, exhibitions, hospitals, campuses and other places.

Main Exhibit: UAV pTG pod, traversing aircraft thermal imaging camera, wireless digital image transmission

Website：www.mg-uavbattery.com
The company's main products include MG UAV solid-state batteries, high energy density batteries, large-capacity UAV batteries, and industrial-grade UAV batteries.The advantages of MG drone solid-state batteries are high energy density, smaller size, lighter weight. Its best-selling battery has an energy density of up to 340Wh/kg, and compared with ordinary drone batteries, the battery life is increased by more than 30%! The DC internal resistance is reduced by 40% and the weight is reduced by 20%, allowing the drone to fly longer. It is 10% smaller than ordinary batteries, giving drone manufacturers more room for new product development and design.

Main Exhibit: UAV solid-state batteries, high energy density batteries, UAV batteries.

The company has been engaged in the OEM business of Drone. 1. Technology: We has researched and developed on the processing technology of composite materials. Just like we used to solve technical problems for industry-leading customers, we can cooperate with you in product designs and process designs， providing material and process selection suggestions at the beginning stage of your product designs, reducing your design selection time and your trial and error costs and procurement costs. 2. Quality: We has established a reliable quality management system and is equipped with professional testing equipment. Sometimes our quality inspection standards are stricter than the customer's acceptance standards. It is divided into multiple quality control links such as self-inspection, mutual inspection, and general inspection. Our products have gone through the cruel "hard test" of nature. From the snowy Antarctic to the sweltering heat of Hawaii, our products work reliably.
Main Exhibit： Drone

Beijing Shirenzi Equipment Technology Co., Ltd. is a high-tech intelligent manufacturing company，integrating product technology development, R&D, production and e-commerce sales. Our company belongs to the national high-tech and Zhongguancun high-tech enterprises. Our company's core research and development team consists of technical experts from Beijing University of Technology and Beijing University of Posts and Telecommunications. Based on multi-rotor and vertical fixed-wing UAV platforms, we are engaged in technology research and development, production and sales, and UAV flight mounting services for applications such as radiation source detection and identification, and material delivery and transport.
Main Exhibit： Heavy-lift transport UAV、Fixed-wings UAV

Booth Number：1D208

Shenzhen Amist Electronic Technology Co., Ltd

Shenzhen Science and Technology Park Jiangmen Park is jointly planned, developed, constructed, and operated by Shenzhen Science and Technology Industrial Park (Group) Co., Ltd. and Guangdong Hurun Enterprise Group. The park covers an area of 296 acres with a total construction area of 578000 square meters. It is a key industrial renovation and upgrading project supported by Jiangmen City and Pengjiang District. The park mainly focuses on core industries such as high-end equipment manufacturing, new generation information technology, new materials, and unmanned aerial vehicle (UAV) industry applications. It aims to create a Xijiang East Bank industrial city complex and an innovative high-tech ecological park that integrates headquarters office, entrepreneurship incubation, research and development design, intelligent manufacturing, industrial exhibition and display, leisure and entertainment, and ecological living.

Main Exhibit: Drone rental services, drone teaching and application services

Shenzhen Landichuang Technology Co., Ltd., since its birth in 2023, has brought together an elite team in the radio field. With many years of deep experience, they focus on baseband chip design, narrowband high-speed data transmission algorithm research and development, anti-interference and encryption system innovation, Development of large-scale Internet of Things networking systems and their terminal equipment and gateways. In addition, the company also deeply explores the communication technology of unmanned equipment (such as drones, unmanned ships, and unmanned vehicles), and is committed to realizing the comprehensive optimization of three-dimensional data links for sea, land and air self-organizing networks. technology innovation. We provide technical equipment with excellent performance and quality for multiple fields such as drones, manned aircraft, industrial automation, logistics, etc., and tailor-made efficient and economical comprehensive wireless system solutions.

Main Exhibit: Wireless link networking and data image transmission equipment and solutions

Founded in January 2015, Shenzhen NED Optics Co., Ltd. is a startup hi-tech company in the Augmented Reality (AR)/Virtual Reality(VR) head mounted displays (HMDs) field. The company is deeply committed to the research and development of cutting-edge near -eye display technologies and products, as well as solutions to industrial applications. The technical team consists of doctors in display optics and experts from Olympus who own more than a decade of solid technological experience in micro display devices, near-eye display optics, ultra-precision optical -mechanic design and assembly, image processing algorithm and driving system. The company has filed more than 100 patents worldwide, of which over 60 have been granted. GOOVIS is the brand of HMD products of NED Optics, which means ‘Good Vision’. With world-leading characteristics of high resolution, light weight, and dizziness free, GOOVIS features FHD 800” giant screen @20 meters, and displays

Aerocae Digital is a company focused on general CAE/CFD fluid simulation solutions,dedicating to help China's high-end manufacturing industry lead the world with the fully self-developed pre-processing/solver/post-processing integrated simulation system. In 2022, the company released the domestic original industrial fluid simulation system - AEROCAE, it can provide high-precision and high-performance of fluid simulation. Aerocae Digital proposed the post-processing concept of "Industry + Aesthetics" for the first time in the industry, which greatly improved the cooperation efficiency and effectively enhanced the accuracy of customer demand/product definition.The AEROCAE-UAS high-performance CAE/CFD fluid simulation system developed by the company is applied to the aerodynamic, noise, unidirectional flow, multiphase flow and fluid-structure coupling simulation of aircraft rotor and fixed wing, etc. The system provides control/feedback interface to support secondary development.

Main Exhibit: AEROCAE-UAS high-performance CAE/CFD fluid simulation system

Hangzhou Qingniao Intelligent Aviation Technology Limited

Tel: 18610933294

E-mail: nancy@qingniao-ai.cn

Website: www.qingniao-ai.cn

Hangzhou Qingniao Intelligent Aviation Technology Limited takes "making the unmanned autonomous and giving intelligence a body" as its mission, aiming to equip drones with an "AI brain." The core technology, with large model intelligent agent technology and unmanned aerial vehicle (UAV) body control development technology as the "two wings," propels industrial drones capable of autonomous decision-making into the sky. The company's core product is a software and hardware system for drones driven by large models. The system is based on a control architecture of "agent as cerebrum, controller as cerebellum," where the intelligent agent serves as the decision-making generator. This assists in rapid response and human-free decision-making for various mission scenarios, including surveillance inspection, reconnaissance and detection, collaborative search, and autonomous decision-making. It serves key areas such as national defense construction and the low-altitude economy.

Main Exhibit: Driving drones with LLMs , equipping them with "AI brains".

Anhui Haoxiang Aviation Technology Co., Ltd. is a high-tech enterprise focusing on the research and development of new carbon fiber materials, the design service of industrial unmanned aerial vehicle, the production and sales of new carbon fiber materials flight platform, and has a research and development team of more than 20 people with Dr. Tang Chao as the core. After eight years of research and development, it has mastered the international leading carbon fiber anisotropic molding process, the domestic leading carbon fiber prepreg slurry formula and weaving process, polymer internal mold molding technology, wing co-curing integrated molding technology, and industrial unmanned aerial vehicle design and mold opening experience. Compared with domestic counterparts, our products can be reduced by more than 30% in weight, increased by more than 20% in strength, enhanced by more than 25% in toughness and reduced by more than 50% in cost.

GreenValley International Inc (GVI), headquartered in Berkeley, California, is a leading innovator of 3D mapping technologies. GVI provides a wide range of advanced aerial, terrestrial, and mobile LiDAR survey and mapping hardware systems and cutting-edge software as well as turnkey solutions. Our portfolio includes airborne, handheld, mobile, and backpack laser scanning platforms, as well as point cloud processing software such as the LiDAR360 LiDAR data processing platform. GVI focuses on LiDAR and image fusion technology, specializing in LiDar, UAV, SLAM, Photogrammetry, and other technologies to achieve an accurate digital representation of three-dimensional space. To date, our solutions have been adopted by users in over 130 countries, including the United States, Australia, Europe, Japan, and Singapore. As we continue to expand our reach and technological capabilities, GVI remains committed to driving innovation and pushing the boundaries of what's possible in the LiDAR space.

深圳市智慧城市产业协会（ShenzhenSmart CityIndushy Association），（缩写：SSCIA）是经深圳市民间事务管理局批准成立的非营利性行业组织。

本协会由从事智慧城市综合规划解决方案提供商、建设与运营管理商、应用设备与软件厂商、通信网络提供商、芯片厂商、运营服务提供商、云计算物联网高技术应用与培训和信息服务商；城市智能环保系统工程设计、施工与维修建设服务商以及与智慧城市行业相关的媒体和企事业单位共同组成的联合体。

深圳市智慧城市产业协会依托深圳智慧城市产业整体技术平台和行业协会的带动能力，依靠群体智慧、整合优势资源，推动智慧城市行业的产学研用。为深圳企业引领全国高技术发展的先机，抢占国内市场和科技制高点提供智慧城市整体运营服务，最终使深圳智慧城市产业引领全国。

协会宗旨：推动深圳乃至中国智慧城市建设，整合智慧城市产业链条，促进打造智慧城市产业集群，为深圳智慧城市行业企业抢占国内外市场和科技制高点提供整体服务，为智慧城市发展做出贡献。

深圳市乾坤公共安全研究院

地址：广东省深圳市福田区深南大道 6025 号英龙大厦 4 楼
电话：0755-88309160
E-mail：gabjb001@163.com

深圳市乾坤公共安全研究院成立于 2009 年 6 月，是深圳市第一家以研究城市社会公共安全为目的的智囊研究机构。聘请了国内外 20 多名公共安全领域的知名专家学者为研究员，积极承担国家、省、市公共安全研究课题。

研究院下设理论研究部、市场调查部、公共安全产品实验室。理论研究部主要针对城市公共安全存在的显性风险和隐性风险进行研究，为政府部门决策提供依据；同时，承担国家、部、省、市和有关单位委托的科研课题。市场调查部主要对相关行业进行市场调查和分析并提供调查报告。公共安全

overall services for Shenzhen smart city industry enterprises to seize the domestic and international markets and the high point of science and technology, and contribute to the development of smart city.

Shenzhen Qiankun Public Security Research Institute

Address：4F, Yinglong Building, No.6025 Shennan Avenue, Futian District, Shenzhen, Guangdong, China
Tel：0755-88309160
E-mail：gabjb001@163.com
Shenzhen Qiankun Public Security Research Institute, established in June 2009, is the first think-tank research institute in Shenzhen for the purpose of studying public security in urban society. It employs more than 20 well-known experts and scholars in the field of public safety at home and abroad as researchers, and actively undertakes national, provincial and municipal public safety research projects.
The Institute has a theoretical research department, a market research department, and a public safety product laboratory. The theoretical research department mainly focuses on the explicit and implicit risks of urban public safety, and provides the basis for governmental decision making; at the same time, it undertakes scientific research topics commissioned by the state, ministries, provinces, municipalities and relevant units. The Market Research Department mainly conducts market research and analysis on related industries and provides research reports. The Public Safety Laboratory is divided into two parts: first, it conducts research on risk coefficients in related fields and obtains reliable scientific data to serve as an important support for theoretical research; second, it conducts tests on public safety products.
As a specialized research institute for urban public safety, the Institute aims to use its own and social research power to strengthen research in the field of public safety and contribute to the urban safety and security system.

深圳市中安无人系统研究院（Shenzhen CPS Unmanned System Research Institute，简称：USYS Research）成立于 2015 年 08 月 05 日，是由深圳市民政局批准成立的民办非企业单位。与深圳市智能交通行业协会、深圳市安全防范行业协会、深圳市无人机行业协会、深圳市智慧城市产业协会、广东省智能网联汽车与智能交通应用专业委员会、深圳市天地智能交通研究院、深圳市乾坤公共安全研究院等多个知名行业协会和组织，以及各产业园区运营商、社区服务商等建立了长期战略合作关系。USYS Research 致力于智能网联无人系统的科技融合与创新应用，以共赢思维、务实服务的工作态度和作风，积极推进以无人车为主的智能网联无人系统商业化落地和运营服务工作。由欧洲科学院院士、深圳市无人机协会会长杨金才出任荣誉院长，深圳市政协委员、深圳市智能交通行业协会常务副会长杨鹏博士担任院长。

USYS Research 秉持“立足深圳，依托粤港澳大湾区发展优势，开展全球无人系统领域的交流与合作”的服务视野和定位，致力于无人系统的科技融合与创新应用，着力联合科研院所、高等院校、知名科技企业和服务机构，共同开展面向陆海空天大无人系统产业的智库建设与项目服务、产业集群建设与产业高端对接、产学研合作及产业报告编制等事务。

USYS Research 已与深圳市智能交通行业协会共同联合各无人车企业编制并发布了国内首部《低速无人车城市商业运营安全管理规范》团体标准，并在此基础上持续推进了低速无人车的社会公共安全产品认证和专项运营保险。

2022 年，USYS Research 继续组织《景区园区 街区 社区无人驾驶慢速接驳车运营安全管理规范》等团体标准的编制和推进工作。USYS Research 将借助各生态合作行业协会的资源聚集优势和行业知名度，在智慧城市、智能交通、应急安全、人工智能、海内外科技合作等方面推动专家聚合及面向无人系统的多领域跨界与合作，围绕粤港澳大湾区和国内有条件城市开展自动驾驶及无人车产业培育与应用合作为主要方向，十四五期间将重点推进和加速包括低速无人车在内的无人系统的大规模商业化应用和相应配套的城市智能交通基础设施建设进程。

中国警察装备采购指南
